Re: Exit 19 Modification; Stimulus funding Request

With the goal of achieving direct access to our commercial zone this project will address congestion on route 9 as well as exit 19. It will also be beneficial to the north end of Middletown.

This project involves the least environmental impact and is the most cost effective to construct. The Project No. 82-279 for economic stimulus is identified for infrastructure improvements.

List of supportive stakeholders and constituents:

	General Manager		FNC Manager
	Assistant Branch Manager		Super Hair & Tan
C. Sabatini	Office Manager	Leon Sabatini	H+R BLOCK
